

MAXIMUM PERFORMANCE FROM FACTORY TO FARM

The TUFF Cube Max IBC Tote is Engineered to Store, Transport, and Dispense Regulated Liquid Materials

FEATURES AND BENEFITS

- Rigid & Reliable Strength:** UN/DOT certified Title CFR 49 UN31H1 for Packing Groups II and III for regulated and nonregulated materials. Rotationally molded using industrial grade HDPE for high-impact strength to withstand years of use in the warehouse and on the farm. Sized specifically to accommodate chemical quantities commonly required for crop treatments.
- Easy to Use:** Molded-in and inked volume markers are added for approximate product filling and monitoring. The sloped bottom maximizes drainage. The valve area is easily accessible by operators, and TUFF Series totes stack seamlessly with other brands.
- Cost Efficient & Impact Resistant:** Returnable IBC tanks are constructed for reuse over many years, designed for multiple and repeated turns. Investing in a fleet of asset tanks delivers a higher ROI and reduces waste compared to one-way containers.

SPECIFICATION CHART

MODEL	SIZE	TARE WT
454 Liter	36" x 36" x 44"	62 kg

UN/DOT certified, Title CFR 49 UN31H1, 1.5 specific gravity, measured in gallons and liters. All dimensions and tare weights are approximate.

TUFF LINQ® VALVE

- Integrated cam-lock provides superior seal to prevent leaks
- Patented valve with 30% stronger connection
- Large external threading reduces risk of contamination

U.S. Patent 11,713,238

Interlocking Stacking Design, 2-3 High

6" Fill Lid & (3) 2" Top Ports

Molded Section for Hazard Plate

Molded-In Volume Markers

Made from HDPE, FDA-Compliant Prime Virgin Resin

Multiple Base Color Options

2" TUFF LinQ Outlet Valve

4-Way Forklift & Pallet Jack Access

YOUR PARTNER IN AGRICULTURE

Elkhart Plastics is committed to providing innovative, engineered solutions to the agricultural markets. In addition to the Tuff Cube, we offer the following products:

- **TUFF Stack®**
- **140L SVR**
- **Vertical Storage Tanks**
- **Custom Manufacturing Solutions**
