

CONNECT WITH CONFIDENCE

U.S. Patent 11,713,238

All TUFF Series IBCs are equipped with the patented TUFF LinQ® valve.

Safely dispense regulated chemicals with the patented TUFF LinQ® outlet valve designed for a superior seal, secure connections, easier cleaning, and reduced contamination risk.

FEATURES AND BENEFITS

- **30% stronger**, more secure connection with an integrated male cam-lock fitting and dust cap
- **Improved sanitary design** with large external threading that eliminates internal threads in the product zone, reducing contamination risk
- **Easy-to-clean**, superior seal that simplifies maintenance and supports regulatory compliance
- **Flexible valve configurations** including Stubby or 2" Ball valve options, with select models offering a check ball to prevent backflow and enhance product security
