

CONNECT WITH CONFIDENCE

U.S. Patent 11,713,238

All TUFF Series IBCs are equipped with the patented TUFF LinQ valve.

Safely dispense regulated chemicals with the patented TUFF LinQ outlet valve designed for a superior seal, secure connections, easier cleaning, and reduced contamination risk.

FEATURES AND BENEFITS

- **30% stronger**, more secure connection with an integrated male cam-lock fitting and dust cap
- **Improved sanitary design** with large external threading that eliminates internal threads in the product zone, reducing contamination risk
- **Easy-to-clean**, superior seal that simplifies maintenance and supports regulatory compliance
- **Flexible valve configurations** including Stubby or 2" Ball valve options, with select models offering a check ball to prevent backflow and enhance product security
