

STORE & TRANSPORT WITH CONFIDENCE

The TUFF Stack Pro® Heavyweight is Engineered to Store, Transport, and Dispense High Pressure Materials

FEATURES AND BENEFITS

- **Made for High Pressure Materials:** The heavyweight model has a 428 kPa (62 psi) design pressure rating, so it's able to accommodate higher pressure chemicals. The cylindrical shapes allows for equal pressures throughout the container.
- **Rigid & Reliable Strength:** UN/DOT certified Title CFR 49 UN31H1 for Packing Groups II and III for hazardous and nonhazardous materials. The heavy-duty structural frame offers added container protection and reduced rub points on the bottle. Rotationally molded using industrial-grade corrosion free HDPE for high impact strength.
- **Easy to Use:** Molded-in and inked volume markers are added for approximate filling and product level monitoring. The sloped bottom maximizes drainage, reducing product waste. The valve area is easily accessible by operators, and TUFF Series totes stack seamlessly with other brands.

- **Cost Efficient & Low Impact:** Returnable IBC tanks are constructed for reuse over many years, designed for multiple and repeated turns. Investing in a fleet of asset tanks delivers a higher ROI and reduces waste compared to one-way containers.

TUFF LINQ® VALVE

- Integrated cam-lock provides superior seal to prevent leaks
- Patented valve with 30% stronger connection
- Large external threading reduces risk of contamination

U.S. Patent 11,713,238

SPECIFICATION CHART

MODEL	SIZE	TARE WT
275 Gallon	46" x 46" x 62"	372 lbs
330 Gallon	46" x 46" x 70"	396 lbs

UN/DOT certified, Title CFR 49 UN31H1, 1.9 specific gravity, measured in gallons and liters. All dimensions and tare weights are approximate.
