

Tuff Containers for Tough Chemicals

MADE IN USA

ISO 9001
CERTIFIEDISO 14001
CERTIFIED

Optional Top Lifting
Lugs Available

Tuff Stack Pro Advantages

- **Rigid & Reliable Strength.** UN/DOT certified Title CFR 49 UN31H1 for Packing Groups II and III hazardous and non-hazardous materials. The heavy-duty structural frame offers added container protection and reduced rub points on the bottle. Rotationally molded using industrial-grade corrosion free HDPE for high impact strength.
- **Easy to Use.** Molded-in and inked volume markers are added for approximate product filling and monitoring. The sloped bottom maximizes drainage, reducing product waste. The valve area is easily accessible by operators, and Tuff Series totes stack seamlessly with other brands.
- **Cost Efficient & Low Impact.** Returnable IBC tanks are constructed for reuse over many years, designed for multiple and repeated turns. Investing in a fleet of asset tanks delivers a higher ROI and reduces waste compared to one-way containers.

Tuff LinQTM Valve

Offering a 30% stronger connection than the industry standard valve! Available in standard and stubby versions, Tuff LinQ is a patented design with external threads to eliminate threads within the produce zone creating an improved sanitary connection. U.S. Patent 11,713,238
